

ANATRON

Scripter Interface Instructions

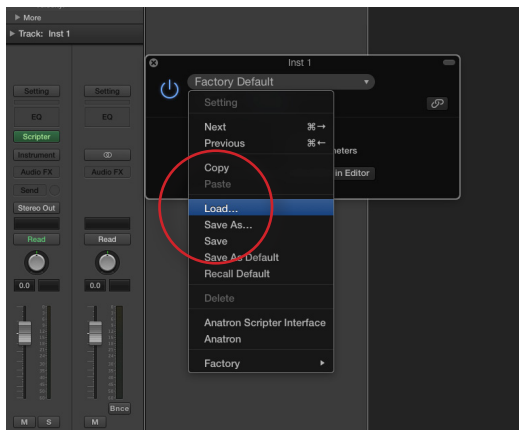

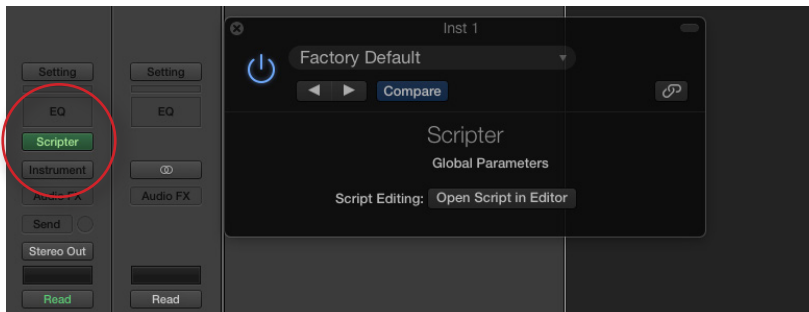

The **ANATRON** Scripter Interface allows you to control the **ANATRON** as through it were a software plug-in in Logic X. All the parameters are both automatable and real-time adjustable.

1

Locate the empty **MIDI FX** box in the channel strip

2

Load up the **Scripter** Plug-in

3

In the **Scripter** plug-in:

Choose: **Load...**

Then locate **Anatron Scripter Interface**
